## PORT IN THE LADRONES

Uncle Sam Secures It Under Terms of Protocol.

## GUAM CONCEDED BY SPAIN.

Porto Rico Practically Transferred, Only a Few Details to Be Decided. Peace Commissions Getting Down to Business.

Paris, Oct. 25.—The adjournment of the joint commission was until the afternoon of Wednesday. Guam, in the Ladrone islands, has been chosen by the Americans for the United States, under the terms of the protocol, and its cession has been confirmed by the Spanish commission.

Details of minor importance alone remain to be decided upon in connection with the cession of Porto Rico, the formal transfer of which is practically accomplished.

The chief matter considered at the session was the American reply to Spain's revised and renewed propositions of the last meetings, and the indications are that the Cuban question will be disposed of this week. But no details have been given out by either side regarding Spain's presentment of Friday last, or the American traverse of the same submitted Monday.

### HOBSON TALKS.

All But One of the Sunken Spanish Warships Can Be Saved.

Boston, Oct. 25.—Naval Constructor Hobson was questioned by a reporter as to the prospect of raising the sunken Spanish war vessels off Santiago harbor.

He said he was now engaged in the preliminary work on the Cristobal Colon and that it would take at least three weeks more before anything would be ready. The government had appropriated \$500,000 for the raising of the vessel, but it will be money well spent, he said, if the venture proves a success, as she is worth \$4,000,000.

He thought the Vizcaya could be saved, but would not affirm it positively. She had settled in the sand, which has formed a thick bed around her, so that she is resting in an easy position, but a dry dock would have to be built around her before she could be raised. An appropriation of \$1,000,000 would cover the work of raising the Vizcaya and would enable the government to bring her north and put her into good condition. She cost \$3,000,000. The Reina Mercedes, which was sunk in Santiago harbor, is a good vessel and can be raised with but little cost.

Mr. Hobson says there is a growing sentiment among naval officers that every one of the sunken Spanish ships should be raised, and if found to be unseaworthy to be kept as relics.

### PORTO RICO NEWS.

Members of Cabinet Swear Allegiance to the United States.

San Juan, Porto Rico, Oct. 25.—The members of the insular cabinet took the oath of allegiance to the United States with becoming solemnity.

They will issue a manifesto announcing their resolution to avoid partisan politics and end party strife.

About \$12,000 have been collected as customs duties since October 18, the day the United States formally took possession of Porto Rico.

General Ortega embarked on board the Spanish steamer Montevideo and was saluted from the shore. He made a speech declaring the island had been surrendered by order from Madrid, adding that he would never have done so without such an order.

The general sailed and was saluted by the United States cruiser Newark.

Rear Admiral Schley and his staff are on board the Newark awaiting the arrival of Commander Snow, who is to take command of the United States naval station at San Juan before departing.

Colonel Hunter, secretary of the United States military commission, who is in poor health, will leave Ponce on Oct. 26 on board the Philadelphia.

### Going to Peace Jubilee.

Washington, Oct. 25.—A number of army officers were at the war department. Some of them have been recently down south examining the sites for camps where troops under their commands will be stationed. Most of them will go to Philadelphia to take part in the peace jubilee. There were at the secretary's office at one time Major Generals Copper, Wheeler, Chaffee, Young and Kiefer and Brigadier Generals Davis and Oates.

### For Defying Americans.

Manilla, Oct. 25.—General Pio del Pilar, who is looked upon as being the foremost rival of Aguinaldo, has been summoned to Malolos, the insurgent headquarters, and arrested. The charge against him is disregarding Aguinaldo's authority and attempting to defy the Americans. Aguinaldo has tried

to remove several of the insurgent officers who are uneducated and unfit for their positions, but he has been compelled to reinstate them.

### Work of the Investigators.

Anniston, Ala., Oct. 25.—The war investigation commission examined about a dozen witnesses, including a number of officers and men of the regular troops, as well as a number of volunteer officers. Testimony treated of minor grievances of camp.

### A Spanish Wall.

Madrid, Oct. 25.—The Imparcial says: "No victor ever treated the vanquished as the United States is treating Spain. The government has received a grave dispatch from Porto Rico announcing that the American general there is acting toward Spain as the European nations have treated China. He ordered a Spanish steamer to embark the remainder of the Spanish troops at Porto Rico, in spite of the protests of her captain, who had orders to go to Havana to embark sick soldiers. Our government will probably protest against such action."

### Work For Cubans.

Santiago, Cuba, Oct. 25.—Several wealthy Cubans have offered General Wood a quantity of land to enable him to carry out his plans of furnishing work for any one who desires it. Any such applicants will be given for one year the use of a piece of land with implements, seeds and rations until his crops grow to enable him to supply the Santiago market with vegetables, fruit, fowls or pork.

### Preparing to Move South.

Lexington, Ky., Oct. 25.—The movement of troops from Camp Hamilton to camps in the south will begin Sunday, when the division commanders and their staffs leave. The regiments begin leaving Nov. 9 at the rate of one each day.

### Hobson Returns.

Boston, Oct. 25.—The steamer Beverly arrived at her dock here 24 hours later, having on board Naval Constructor Richmond P. Hobson, who is en route to Philadelphia to participate in the peace jubilee.

### Last of the Spanish Sail.

Washington, Oct. 25.—The following dispatch has been received at the war department from General Brooke, dated Ponce: "General Ortega and the last of the Spanish soldiers here sailed for Spain."

### Died at Lexington.

Lexington, Ky., Oct. 25.—Private Will Williams, Tenth United States volunteers (colored), died of pneumonia. His home is in St. Louis.

### Transport Ohio In Condition.

San Francisco, Oct. 25.—The transport steamer Ohio has come from the hands of the repairers and is now ready to take on troops.

### THE CAMPBELL CASE.

Startling Charge Against One of Claimants to the Estate.

Chillicothe, O., Oct. 25.—The case of Nellie Duncan Campbell against Mrs. C. W. Story and Mrs. James C. Quinn, in which she seeks to recover over \$100,000, which she claims as her share of the Campbell estate, has come up again for hearing.

Miss Campbell claims to be the granddaughter of Samuel Campbell and entitled to one-third of the estate. The other two heirs, Mrs. Quinn and Mrs. Story, claim that she is illegitimate, and so entitled to no share in the estate whatever. Miss Campbell is now one of the most prominent and beautiful young society girls in the city. Miss Campbell was born after the second marriage of Duncan Campbell to his divorced wife.

### Will Be Extradited.

London, Oct. 25.—Dr. Nancy Gulliford, the midwife of Bridgeport, Conn., was again brought up on remand at Bow street police court. Counsel for the prisoner, in the course of the day's proceedings, said he wished to deny the report that his client had admitted her guilt. The effect of the magistrate's decision is that the prisoner will be extradited, subject to a delay of 15 days.

### Ready For the Jubilee.

Philadelphia, Oct. 25.—The city wears a carnival garb. On the downtown streets there is scarcely a building which does not flaunt a display of bunting. The naval fleet in the Delaware river has been augmented by the arrival of four more war vessels—the torpedo boat Winslow, the cruisers Marblehead and Gloucester and the dispatch boat Mayflower.

Baltimore Oct. 25.—The application of the preferred stockholders of the Baltimore and Ohio to require witnesses to answer questions came up for hearing in the United States circuit court. The court granted the motion of Messrs. Johnson and Steele and rescinded the previous order, thus permitting the trustees of the several Baltimore and Ohio mortgagees to file their bills for foreclosure and perfect their proceedings.

## A HOT FIGHT ON PAPER

England and France Are Having Over Fashoda.

### ANOTHER BLUE BOOK OUT.

It Contains Further Information Concerning John Bull's Stand on the Mooted Egyptian Question. Up to France Now.

London, Oct. 25.—The British government has issued another blue book.

The most important feature is a dispatch, dated Oct. 12, from the Marquis of Salisbury to the British ambassador at Paris, Sir Edmond Monson, reporting the previous interview with Baron de Courcel, in which the latter wished to ascertain what solution of the question was possible. In this dispatch the Marquis of Salisbury says:

"I generally insisted that the Nile valley had belonged and still belonged to Egypt and that whatever diminution that title had suffered by the Mahdis conquest had been removed by the victory at Omdurman."

The Marquis of Salisbury then pointed out the helplessness of Major Marchand's position, which Baron de Courcel denied and finally the British premier, in response to Baron de Courcel's suggestion, offered to supply Major Marchand with food and ammunition, in order that he might be able to reach French territory. Baron de Courcel then said France wanted an outlet to the Nile and the Marquis of Salisbury requested that the whole proposition be made in writing.

This was the last interview between the ambassador and the premier on this subject. Baron de Courcel then went to Paris and it is thought that the proposition which he now brings embodies the points indicated in this conversation. The British cabinet council has been fixed for Thursday.

### ENGLISH PAPERS

Discussed the Report of French Ambassador About Fashoda.

London, Oct. 25.—The afternoon newspapers here discuss the report of the French ambassador, Baron De Courcel, on the subject of the conversation he had with the Marquis of Salisbury, regarding the proposed French outlet on the Nile, as being the leading feature of the yellow book on the Fashoda question, issued by the French government.

The Conservative organs scout the idea of the Marquis of Salisbury entertaining the surrender of the Bahr-el-Ghazel valley to the French, and the Pall Mall Gazette and the Globe suggest that the ambassador misunderstood the premier, and call on the latter to make some explanation.

The Liberal and Radical papers are not displeased at the prospect of a compromise being arrived at, and they believe that, provided Major Marchand is recalled, the dispute is susceptible to an arrangement by which France will receive some satisfaction in the Bahr-el-Ghazel district.

Miss Campbell claims to be the granddaughter of Samuel Campbell and entitled to one-third of the estate. The other two heirs, Mrs. Quinn and Mrs. Story, claim that she is illegitimate, and so entitled to no share in the estate whatever. Miss Campbell is now one of the most prominent and beautiful young society girls in the city. Miss Campbell was born after the second marriage of Duncan Campbell to his divorced wife.

Paris, Oct. 25.—The newspapers here warmly praise the exposition of the French side of the Fashoda question presented by the minister of foreign affairs, M. Delcasse, in the yellow book just issued. The Figaro says: "If the British government rejects France's moderate and just proposals, it can only be because the government of Great Britain desires before everything else the humiliation of France."

### Troops at Toulon.

Paris, Oct. 25.—The municipal authorities of Toulon have been notified that that place will be the center of important naval and military preparations, and have been instructed to arrange for the immediate reception of four battalions of infantry, 1,500 marines and 600 artillerymen. The municipal council has decided to close the schools, and the school houses will be used for lodging the troops.

### Five Negroes Arrested.

Forest, Miss., Oct. 25.—Five negroes concerned in the riot which occurred Saturday night and Sunday, resulting in the killing of one white man and 10 negroes, have been arrested at Hattiesburg. They are being brought here and will be tried immediately upon arrival. The excitement here continues and the streets are thronged with men.

### Atchison Earnings.

Chicago, Oct. 25.—The net earnings of the Atchison system for the month of September were \$1,065,179, an increase of \$9,015 over the same month of last year.

Memphis, Tenn., Oct. 25.—The convention called to meet in this city to discuss the yellow fever and quarantine problems will be held on Nov. 28, 29 and 30. Representatives from all southern states and the larger northern cities have been invited.

## DUTY ON TOBACCO.

American Cigar Makers and Cuban Planters Do Not Agree.

Washington, Oct. 25.—A perplexing problem confronts President McKinley in the matter of fixing the duties on tobacco in the island of Cuba during its military occupation.

The cigarmakers of Florida and the manufacturers of tobacco in many of the large cities have asked about probable changes in duties during American occupation and urged the abolition of all duty.

They say they have been injured many thousands of dollars by the war in Cuba, and that the only way to immediately rebuild the trade is to encourage the Cuban planters and American enterprise by giving every inducement for the growing and shipping of tobacco to this country.

On the other hand the Cuban planters have begged that no such action be taken, as it would mean their eternal ruin and practically kill the tobacco industry in Cuba.

They claim if the import duties are abolished or lowered, tons of inferior tobacco would be sent to the United States from Cuba, manufactured into cigars and shipped from the island as Havana cigars, finding their way into all the markets of the world.

### Apple Crop Shy.

Chicago, Oct. 25.—The Orange Judd Farmer will say: "The apple crop of the United States is smaller than it has been since reliable statistics have been collected. The total supply from the 1898 crop of the United States is 27,700,000 barrels compared with something over 40,000,000 last year, and 70,000,000 in the record-breaking crop of 1896. The failure is widespread, reaching from the Pacific coast to Maine, and in none of the states does the output of fruit approach an average. In the great apple states of the west the crop is almost an absolute failure, though the situation in Michigan is better than elsewhere."

### Not Amenable to Anti-Trust Law.

Washington, Oct. 25.—Justice Peckham also announced the court's decision in cases against the Kansas City Live Stock Exchange, operating at Kansas City and western Missouri. The government prosecuted under the anti-trust law. The supreme court holds that the association does not come under the anti-trust law. Justice Harlan in a dissenting opinion declared that such combinations were rings or syndicates, which, if extended to oil, sugar, salt, lumber and other staples, would place the commerce of the country under the control of a few rings and syndicates.

### License Revoked.

Lansing, Mich., Oct. 25.—State Insurance Commissioner Campbell revoked the license of the Liverpool, London and Globe Insurance company. This action was taken after an investigation of charges made by Detroit merchants and manufacturers that stock fire insurance companies are violating the Michigan anti-compact law. This law does not apply to Michigan companies but only to outsiders ones.

### Strike on a Railroad.

Colorado Springs, Colo., Oct. 25.—No freight trains are running on the east division of the Colorado Midland railroad in consequence of a strike. The trouble originated when a crew was called upon to take out a 3-engine train. The men claimed that the company made an agreement some time ago not to run 3-engine trains and no crew would respond to the call.

### Sailors Seized.

Seattle, Wash., Oct. 25.—The bark Highland Light, which has been loading coal at the Smith coal bunkers, did not sail for San Francisco owing to an unforeseen occurrence. According to the story of the captain, two boats loaded with men came out to the Highland Light and boarded her. They were armed with pistols and took five sailors away by force.

### Wild Bill Turner Killed.

Middlesboro, Ky., Oct. 25.—"Wild Bill" Turner, a most noted character in the mountains, was shot and killed by Will Coombs. Turner kept a moonshine saloon on the state line between Kentucky and Tennessee and had made a fortune. He had killed several men. He is the sixth brother killed and is the last of the family.

### Want Sale Set Aside.

Louisville, Oct. 25.—A petition was filed in the United States court by the lien holders of the Richmond, Nicholasville, Irving and Beattyville railroad road to set aside the sale made Oct. 6 for \$172,000 to a London syndicate. The plaintiffs are Shanahan and Powell, who hold mechanics' liens for \$180,000.

### The Weather.

For Kentucky—Fair; cooler in central and western portions; south winds, shifting to northwest.

For Ohio—Rain; cooler; south winds, shifting to northwest.

### Yellow Jack Is Dying.

Washington, Oct. 25.—The rapid decline of yellow fever in the south is shown by the few reports now reaching the marine hospital service, not a single new case being reported.

The cold weather is accomplishing all that was expected of it.

## SANTIAGO'S FLY COPS.

### ON A SEMI-MILITARY PLAN.

Armed With All Kinds of Weapons, Cuba's Finest Will Prove a Terror to Crooks—Advisory Board For the Governor.

Santiago, Cuba, Oct. 25.—General Wood has decided to appoint eight of the most prominent members of the Cuban committee of 50 as a permanent council to the governor.

This council will meet General Wood thrice a week to consult as to improvements in the province, and one or more members may go to different points to consider local applications for office. The members of the council will receive salaries.

One of the first matters to be considered by General Wood and the advisory council will probably be the re

For Kentucky—Rain; colder in central and western portions; south winds, shifting to northwest Tuesday night.

An exchange says the party that gets the voters to the polls will win this fall. Democrats should make a note of it.

THE Cynthiana Democrat says Congressman Pugh is making his "farewell" tour of the Ninth district. It "will positively be his last appearance,"—although he doesn't announce it as such. At least, the Democrats will do their best to make it such.

THE railroads are preparing to make a united appeal to the Pullman Company to reduce its rates. The Pullman's gross earnings the past year are over \$10,000,000. The quickest way for the companies to knock out the Pullman trust is to make their own palace cars.

HON. JERRY PORTER, a Western Kentucky Republican, doesn't have a very exalted opinion of Senator Deboe. In a recent speech he said: "Senator Deboe, of Kentucky, may live his days out, officially, for no higher purpose in the world than to fuse with the Populists and hunt for 'pie' until he sends the Republican party to hell!"

"MR. PUGH couldn't give everybody an office, and no reasonable man will condemn him for not doing so," remarks the Grayson Tribune, whose editor opposed Pugh's renomination and who asserted that Pugh couldn't be re-elected. Br'er Littlejohn knows that no one is condemning Pugh for not giving "everybody an office." But they do condemn him for promising so many of the same office.

How is this for an arraignment of the Republican party by a leader of the Republicans? Addressing the Missouri Republican convention, Chauncey I. Filley said:

"I resign the leadership of the Republican party in Missouri because I do not wish to be associated with the patronage brokers, instruction bolters, trust syndicates, tax dodgers and combines, repeaters, franchise grabbers and sellers and either silent or guilty promoters or supporters."

THE Grayson Tribune, a Republican paper, while it condemns the Goebel election law, is frank enough to admit:

The Election Commissioners acted fairly and wisely in the selection of the election officers for this county. The Tribune has no objections to file against the appointments made. It trusts that the committee will continue upon this honorable course through their term of service. The law is obnoxious to all fair minded Kentuckians who have no respect for force bills or their authors. But the law is in effect and Carter County may congratulate herself on securing honorable men for her commission.

### PUGH'S ESCAPE.

A Runaway Horse Nearly Killed the Republican Nominee.

VANCEBURG, Ky., Oct. 24.—Congressman Samuel J. Pugh had a narrow escape from death Saturday night.

He was driving from Morehead to Soldier to make a speech, when his horse became frightened on the mountain side and ran off, overturning the buggy and throwing him and a companion out.

Pugh was entangled in the wreckage and dragged 100 feet down the mountain side. When found by his companion, Layman Smith, he was entangled, and the horse was kicking at him, missing his head by a few inches. He was badly bruised, but was out hustling for votes to-day.

### That's What the Goebel Election Law Aims to Insure.

The Senator's Eloquent Address on the Subject—His Arraignment of Hannaism.

[Extract From Senator Goebel's Speech at Glasgow, Ky.]

There have been many falsehoods and misrepresentations uttered and published about the law. Among the more palpable and flagrant are these:

"It is complained that the law provides no penalties for violations of law that may be committed by the election officers, and in that way the inference is sought to be conveyed that there is no law providing such penalties. The penalties were already provided by the former law, and it was unnecessary to re-enact them. Every penalty provided by the old law for the commission of any election offense whatever remains un-repealed and in full force, and these penalties cover all election offenses that can be committed.

"It has been asserted that the new law makes the judgment of the county or district Contest Board conclusive in contested elections, and deprives the defeated party of an appeal to the courts. No grosser falsehood was ever uttered. The new law leaves in full force every section, line and letter of the former law giving an appeal, first to the Circuit Court, and then to the Court of Appeals, from the judgment of a county or district Contest Board. It was unnecessary to put into the new statute a provision granting an appeal, because the law already made such provision. The new law is not a complete election law. Its repealing clause is expressly limited to the conflict between its provisions and those of other statutes, and as there is nothing in the new law concerning penalties or appeals, of course the provisions on those subjects contained in the old law are in full force and effect.

"It is said that this law violates the principle of home rule and self-government. By this is presumably meant that frauds and thefts in elections are purely local matters; that if there are gross frauds in elections perpetrated in Louisville, only the people of Louisville are concerned therein, and that if fraudulent majorities are turned out in the Eleventh Congressional district outsiders have no right to complain. But the people of the county of Barren have the right in every district, State and national election to have their honest votes given their proper effect, and this they cannot have so long as their votes can be nullified by frauds committed elsewhere in the State. Of what use is it for the Democrats of Barren to vote if their votes can be overcome by fraudulent majorities in Louisville or the Eleventh district? Excepting insignificant local offices, the people of the entire State are greatly concerned in having honest elections everywhere in the State.

"Colonel Richard W. Knott says in the Louisville Post that the law was unnecessary because the Democrats now have more than twice as many County Judges as the Republicans. This can mean but one thing, that in thirty-nine counties the Republicans cannot steal as many votes as can Democrats in eighty-one counties. I am not prepared to concede this proposition as to the stealing capacity of the Republican party, and I deny that the proper way to correct Republican frauds is to perpetrate Democratic thefts. Colonel Knott has the distinction of being the only man in the Commonwealth that openly and deliberately advocates thefts and frauds in elections. This is purely the result of the habit formed in Louisville in 1896 by the gentleman who asserted that anything and everything was right in order to prevent any compromise with dishonor."

The Democratic theory upon this subject is that all frauds and thefts in elections, by whatever party, ought to be prevented by law, if possible.

"It has been said that the law is objectionable because it concentrates power. It concentrates power by giving to three honest, impartial men the same power, and no more than under the old law was vested in one. And it also does this, it prevents any candidate at any election from taking part in the election and appointment of the officers that are to conduct the election. One of the most objectionable features of the old law was the appointment of election officers by County Judges who were candidates for re-election, and they usually were candidates for re-election."

The speaker caustically summed up the Republican record on "force" bills, treating successively of the fraudulent defeat of Samuel J. Tilden, the original Federal force bill, which only Democratic effort defeated; the Lodge bill, which aimed at the same end and met the same fate, and the recent New York election law, putting the election machinery in

Republican hands in all Democratic strongholds. Toward the end of his exhaustive discussion he said:

"The character of the opposition to this law is the best evidence of its necessity and wisdom. Every corrupt and malign influence in the Commonwealth, or out of it, that in any way concerns itself in our elections, opposed the enactment of the law, and denounce it now and demand its repeal. When the bill for the law was pending the Railroad lobby, the Book Trust lobby and every other corrupt influence at Frankfort used every possible means to defeat it. Every influence that fought the Democracy in the campaign of 1896 and helped to steal Kentucky's vote was then and is still arrayed against this law.

"Fellow citizens, the real objection that the opponents of the law have to it they do not state. The real objection is that the law assures honest elections. The law takes the vote of Kentucky out of the election market that has been established by the corruptionists that dominate the Republican party. When in 1900 Mark Hanna renews the "fat frying" and gathers another vast corruption fund from the trusts, monopolies and other combinations of the wealth of the country, and in consideration thereof bargains the exercise of the powers of Government, by which means the contributors of the fund will expect not only to be reimbursed, but magnificently compensated, none of that fund will be sent to Kentucky. None of the corruption fund will be sent to Kentucky because Hanna will not pay for that which he knows cannot be delivered to him. Repeaters and ballot-box stuffers will not be located in every railroad town of the Commonwealth, because it will be well understood that they will not be permitted to vote. In 1900 the returns of the election from the Eleventh district will not be held back until after the returns from all other parts of the State are well known. Telegraph and telephone messages and runners will not be sent into the Republican counties fixing the majorities that the different counties must turn out for the Republican party. Under this law there will not be a Republican majority of 13,000 in Louisville one year and a Democratic majority of 3,000 the next year. Those things will not be repeated under this law, because they were the result of fraud and corruption."

### THEIR WAGES CUT

A Few Days After President McKinley Told Them They Could Expect an Increase—A Coincidence.

NOBLESVILLE, IND., Oct. 23.—Yesterday the Atlanta Steel and Tin Plate Company reduced the wages of some of its employees 15 per cent., and to-day all of the employees walked out in sympathy with those whose wages had been cut.

The mills, which are the largest in the State, are closed down to-night and 400 men are idle.

A singular coincidence connected with the strike is the fact that President McKinley stopped at Atlanta yesterday while on his way from Chicago to Indianapolis, and talked to the employees of these mills. He predicted an early increase both of orders and wages.

Manchester, O., Suffered a Severe Loss.  
Inadequate Fire Protection.

The most destructive fire known at Manchester in years occurred Sunday morning.

The grocery of C. R. Lawwill, his feed store and the meat market of O. C. Bradford were entirely destroyed.

The carriage works of S. P. Tucker & Co. and the residence of J. P. Hundle, also damaged, were saved by heroic work.

Lawwill was insured for \$1,500 and Bradford for a small amount.

The town is without adequate means of fighting fire.

Following is a list of the losses: C. R. Lawwill, grocery and feed store, \$2,500; O. C. Bradford, meat market, \$200; S. P. Tucker & Co., carriages, \$500; Jas. Case, building, \$1,000. The latter is a total loss. The third story of the Tucker building was occupied jointly by the I. O. O. F. and Improved Order of Red Men, whose loss will reach \$100.

### PROVED A SURPRISE.

A Recent Maysville Marriage at Which Cincinnati Furnished the Happy Couple.

Wedded His Firm's Stenographer.

Cincinnati Enquirer

The announcement of the marriage of Mr. J. W. Weaver and Miss Lulu Windsor, of this city, at Maysville, Ky., last Thursday, was a great surprise to the friends of both young people.

Mr. Weaver was formerly employed by the Ault Woodware Company at Second and Walnut as assistant bookkeeper, and while there met and fell in love with his bride, who is the stenographer for the company.

Mr. Weaver resides on Harrison avenue, and is the son of John Weaver, the well known retired capitalist, and a grandson of the late J. B. Goessling, the veteran carriage maker of Cincinnati.

LEWIS WILBURN was fined \$10.50 in the Police Court Monday for getting drunk. Wilburn is a minor, and when asked where he got his liquor said he "pulled it out of a brick wall on Wall street."

### THE MAYSVILLE CEMETERY.

The Company Has Decided to Make Extensive Improvements to the Grounds. May Erect a Chapel.

The Maysville Cemetery Company has decided to make extensive improvements to its grounds.

The company has quite a large surplus in its treasury, and the directors have decided to expend some of this and the income in beautifying the "city of the dead."

The entrance is to be changed somewhat and handsomely improved. The drives, walks and in fact the entire grounds will also be improved.

The company may also erect a small chapel on the grounds where funeral services can be held in rainy and inclement weather. If this is done, the building will likely be located on the spot now occupied by the pretty mound in the central part of the grounds. The company was recently offered \$1,000 for this circular lot occupied by the mound, but declined to sell it.

### House Cleaning

Is made easier by a good chamois skin and sponge. The largest stock in Maysville to select from, at Chenoweth's drug store.

BRIDAL presents of all kinds. Murphy, the jeweler, is showing a line of goods not shown by any other house in Maysville. Cut glass, bronzes, pottery, sterling silver, lamps, tables, plaques, etc.

THE protracted meeting at the Washington Christian Church is still in progress. The attendance is large, and fine attention and a deep interest are manifest. The services are being conducted by the pastor, Rev. M. G. Buckner, and his frank, scholarly and impressive style in the pulpit is winning for him universal favor. The doctor is very popular with his congregation and with the people of the community and much good will evidently result from his labors.

### His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from frightful death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it, and now am well and strong. I can't say too much in its praise." This marvelous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and \$1. Trial bottles free at J. J. Wood & Son's drug store; every bottle guaranteed.

In addition to its own circular, has brought out an order from the Postoffice Department and followed by one from the Treasury Department, looking to its full enforcement.

### PANA MINERS.

Several Incidents Have Occurred Which Encourage Them.

Pana, Ills., Oct. 25.—The union miners claim to feel more buoyant than at any time since the strike was inaugurated.

One reason is that notices have been posted in and around the mines stating that "no insurance would be paid." Pit Boss Franklin resigned, claiming that he could not risk his life with the careless negro miners. Henry Stephens, the negro who led the riot of three weeks ago, has left for Alabama, stating he had enough of Pana.

Other negroes accompanied him. The militia, it is stated, will leave this week, troop B returning to Bloomington. The negro miners have secured a preacher and organized a church. A negro school will also be opened, with a negro instructor from Alabama.

### New York Campaign.

New York, Oct. 25.—The Republican and Democratic candidates for governor are both on the stump, but at opposite ends of the state. Judge Van Wyck has started eastward with the intention of making addresses at various places en route to New York. Colonel Roosevelt entered upon a six-day dash "up the state." His schedule contemplates from nine to fifteen short speeches each day.

### Japan's Fine New Cruiser.

### Negro Riot Averted.

Lumberton, N. C., Oct. 25.—The expected riot between the races at Ashepole, this county, was averted. A crowd of mutinous negroes had entered the village armed and the whites expected to be attacked any minute and asked that aid be sent. Several men arrived, and as the negroes seemed to be quieting down, the whites dispersed.

### Alleged Widows After a Fortune.

Chicago, Oct. 25.—The petition of Avetta McMullen of Winterset, Ia., who claimed to be the widow of the late Allen Gregory, the stockyards millionaire, was dismissed. The relatives of Mr. Gregory are still contesting the claim of another alleged widow who was recently awarded a widow's share in the estate by the probate court.

### No Right to Ugliness.

The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples, blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50¢ a box. Cure guaranteed. Sold by J. J. Wood & Son, drug store.

### LARGELY ATTENDED

And Very Enjoyable Was the Entertainment at the Christian Church Last Night.

The entertainment at the Christian Church last night proved very enjoyable affair. The attendance was larger than had been anticipated by some, the auditorium and gallery being crowded to their full seating capacity and then many were turned away.

The minister of the church announced that it was the first of a series of entertainments to be given monthly during the fall and winter, and that the aim would be to make them not only enjoyable, but uplifting and elevating to all who should attend. He closed by invoking God's blessing upon them.

Mr. H. C. Curran officiated as master of ceremonies. The program, as previously announced, was rendered. The selections by the Maysville Orchestra, the piano duet by Miss Berry and Miss Hutchins, the vocal solo by Miss Hays, the piano solo by Mrs. Dr. White, the violin solo by Miss Rogers, the recitation by Miss Clinkinbeard, the vocal solo by Mr. T. ### LOUISVILLE TOBACCO MARKET.

It Was Somewhat Stronger on Some Grades Last Week—New Crop House-Burned.

Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to \$84 hds., with receipts for the same period 323 hds. Sales on our market since January 1st amount to 89,186 hds. Sales of the crop of 1897 on our market to this date amount to 72,666 hds.

The market the past week has been somewhat stronger for color trash and common short red leaf, but has been irregular and a little lower for the better grades of leaf, both red and color. A few hds. of the new crop have been sold during the week, and the offerings have been of poor quality and generally in bad condition.

The reports which we receive from the country indicate that very material damage has been sustained by the crop in the burley section from house-burn, and in many places the lower tiers in the barns have been damaged by mould. This trouble also extends to some extent to tobacco in the dark producing sections.

The following quotations fairly represent our market for burley tobacco (1897) crop:

Trash (green or mixed)..... \$4.00 @ 5.00  
Common color trash..... 5.50 @ 7.00  
Medium to good color..... 7.00 @ 10.00  
Common color leaf..... 7.00 @ 8.00  
Medium to good color leaf..... 9.50 @ 12.00  
Common to medium leaf..... 9.00 @ 12.00  
Medium to good leaf..... 10.00 @ 15.00  
Good to fine leaf..... 13.00 @ 18.00  
Select wrapper leaf..... 18.00 @ 26.00

A business man is not the most patient creature in the world. He cannot wait to hear any long-drawn-out story of the cause of his ailment. He doesn't care two straws about a fine spun theory of how he should treat himself. He may be predisposed to scrofula, or consumption. "That," he will tell you "has nothing to do with the case." He wants to be well. If he can be cured, write out a prescription and send in your bill. So, here's the first part of the proposition.

Dr. Pierce's Golden Medical Discovery is a microbe hunter and killer. Many persons of scrofulous blood, encourage the breaking out of unsightly sores, to prevent the disease going to the lungs. There is no need of this state of dread and discomfit. Purify the blood. It can be done. "Golden Medical Discovery" will cure 98 per cent. of all consumptive cases, also of all other lingering bronchial, throat and lung diseases.

**Volcanic Eruptions**  
Are grand, but skin eruptions rob life of joy. Bucklin's Arnica Salve cures them. Also old running and fever sores, ulcers, boils, felonies, corns, warts, cuts, bruises, burns, scalds, chapped hands, chilblains, best pile cure on earth. Drives out pains and aches. Only 25¢ a box.
